Subject: Fw: Dimock sampling

This is what they have found at Dimock in previous sampling.

Date: 12/22/2011 10:15 AM Subject: Re: Dimock sampling

Based on the maximum results for the approximately 18 wells sampled, levels of coliform bacteria, methane, ethylene glycol, bis(2-ethylhexyl) phthalate (DEHP), 2-methoxyethanol, aluminum, arsenic, lithium, manganese, sodium, and iron were elevated above comparison values (CVs).
